## CASH IS AT LOW EBB IN NATION'S TREASURY

War Taxes May Be Restored and Other High Pressure is to be Used; "Uncle Joe's" Place in Danger

WASHINGTON, March 12.—It has been ascertained from a high source that the United States treasury is in no better condition than when President Cleveland was obliged to issue bonds to meet current expenses.

The House ways and means committee has practically decided to add most of the war taxes of 1898, and some new ones to the tariff bill. But as it seems doubtful whether this addition to the revenue already provided will meet the needs of the government, the ways and means committee has further provided that about sixty-five or seventy million dollars must be raised by special taxation. The balance, it is expected, will be provided by the customs revenue.

President Taft, at today's cabinet meeting, submitted the first draft of his special message.

"UNCLE JOE" MIGHT GET LEFT FOR SPEAKERSHIP

WASHINGTON, March 12.—The steering committee of the house insurgents today prepare for a conference with the Democratic leaders.

## HARPER ADDS TO CIVIC ROW BY SUDDENLY RESIGNING OFFICE

City Council Met Today and Put Off Appointment of Mayor's Successor Till Monday. George Smith May Be Named

LOS ANGELES, March 12.—A. C. Harper last night tendered his resignation as Mayor of the city of Los Angeles, and also caused his name to be formally withdrawn from the ballot to be used at the recall election to be held March 26, 1909.

Following the resignation of

Mayor Harper, against whom a strenuous recall campaign has been waged, the city council, meeting at 10 o'clock today decided not to elect his successor until next Monday, when it is understood that former councilman, George A. Smith, will be chosen.

Mayor Harper's resignation has muddled municipal affairs. The recallers contend that his

successor's term ends March 26th, the date set for the recall election, while the forces which compelled the Mayor's resignation claim, that as the recall is directed against Harper, the campaign is now over and the council's appointee must serve until January of next year when Mayor Harper's regular term would have ended.

## MORE TIME IS GIVEN KEENE

Gun Store Burglar Thinks He Can Show Proof of Previous Good Record

John R. Keene, who burglarized Hawley's gun store in February and a pawnshop at Riverside last December, made a rambling statement before Judge West this morning and at his request the time of sentence was continued to Monday. Keene hopes to get off on probation, and he said that it given a little more time he could get word from friends elsewhere that would help to establish his declarations of a previous good record.

Keene reiterated his statement that the reason he turned burglar was to obtain money to send to a sister at school. He said that he had been "chasing the rainbow" since 1901, and that he had never been in trouble before. Keene claims to be a woodsman from British Columbia.

Keene gave District Attorney Davis the addresses of relatives in Colorado Springs and Cleveland, and the district attorney has telegraphed to them, hoping to get some word before next Monday. Keene's statements are becoming muddled.

N. A. Ulm, Secretary of Committee, Visited Beach Board of Trade Saturday

County Clerk Williams has received the official notice of the endorsement by the Anaheim Chamber of Commerce of the proposed appropriation of \$1000 by the Board of Supervisors for advertising the 1909 Carnival of Products. The letter follows:

"Board of Supervisors, Orange County, Gentlemen:—At a meeting of the Anaheim Chamber of Commerce held last evening the secretary was instructed by a vote of a majority of the members present, to notify your honorable board that the Anaheim Chamber of Commerce endorses the request of the Orange County Carnival of Products committee for \$1000 county money to be used in the Carnival of Products this year. And you are hereby notified to this effect."

"Yours very truly, GEO. M. ROSS, Secretary."

The action of the Huntington Beach Board of Trade is reported as follows: Huntington Beach News: N. A. The first request of the executive committee for a one thousand dollar appropriation from Orange county to be devoted to advertising the Carnival was upon motion of A. L. Reed unanimously endorsed. Remarks favoring such action were made by Dr. F. E. Wilson, C. W. Warner, Alva Reynolds, S. E. Hearn and President Clippinger. ## NUMERALS GO STRIPES COME

Senior Boys Live up to Letter of Law, for They Painted the Fence

It takes a bunch of boys to do things to a turn while they are at it. For three nights gone by the seniors have been trying to get rid of the paint four of their number spread on the sidewalks and fences last Friday night. The paint on the sidewalks presented the hardest problem, and there remains considerable paint still on hand for the exercise of the elbow. But the board fence across the alley north of the high school was another matter. It was plain to be seen that a coat of paint over the entire fence would obliterate the "09B." That procedure was pronounced by the powers that be at the high school as advisable and satisfactory.

A delegation of senior paint-scrubbers went to the owner of the property and consent was given to paint the boards of the fence alternate colors. So this morning there appeared on the alley fence stripes that would alarm a zebra. Red and yellow alternated along the foot-wide boards.

This was living up to the letter of the instructions. The "09B" was most certainly obliterated, but there glared forth the colors of the senior class inciting every other class in the high school to riot. As yet no orders have been given by the school authorities that the stripes be demolished, but it is understood that they must go the way of the sidewalk paint to oblivion.

The boys of the senior class have issued an invitation to the girls of the class to a scrubbing bee to commence at 8 o'clock tonight. The girls are to bring refreshments and boss the job.

PHILADELPHIA, March 12.—President Lewis of the United Mine Workers, in a statement made today, said:

"The representatives of the operators and the miners of the anthracite districts met for the purpose of agreeing upon a wage contract to govern the region of Pennsylvania. During the deliberations it developed that the operators were unwilling to treat with the miners as representatives of an organized body, and at the same time the operators claim they have no objection to the men being members of the United Mine Workers. This position is so inconsistent that it needs no comment."

"Any proposition to be agreed upon for the miners of the anthracite region that is to have the support of the United Miners, must be signed by the representatives of the miners as representing the United Miners of the anthracite region."

# CLAIM MEASURE WILL GIVE BETTER PROTECTION TO ARTESIAN WELL FLOW

## AMENDED LAW ADVANCE IN GUARDING AGAINST WASTE

Melrose and Leeds reach a Compromise Times Claims it is a Victory for the Ranchers

The Los Angeles Times this morning says that the Leeds duck pond bill as amended is favorable to the ranchers. The Times says: SACRAMENTO, March 11.—Orange county ranchers have won their fight on the dangerous features of the Leeds duck pond bill, and the measure now will pass the Assembly without opposition. Leeds stated today that he is satisfied with the amendments, which will protect the rights of his constituents, and still afford the gun clubs abundant opportunity to fill their ponds. The agitation that started with the introduction of this bill has resulted in the framing of a measure that will give even greater protection to the artesian water supply that is so valuable in Orange and other counties. The amended measure goes much further than the present law in

guarding against the waste of the flow. In fact the ranchers themselves must be far more careful in the use of water in the future than they have been in the past, as there is every probability that the bill will become a law. As originally introduced by Leeds, the bill provided that artesian water could be used for the preservation of game in addition to the provisions of the present law, permitting its use for domestic and irrigation purposes and for the propagation of fish. The "preservation of game" clause would have permitted the filling and refilling of duck ponds, and the fear of the ranchers was that this would mean the drain of many million gallons a year on the supply. To meet the first objections, Leeds amended the bill so as to provide that the water might be used for "other bene-

ficial purposes," cutting out the reference to game.

### Reach Compromise

Melrose would not accept this amendment, as the creation of a feeding ground for ducks naturally could be proved to be beneficial. So, after many conferences, the Los Angeles and Orange county Assemblymen got together on an amendment which permits application of the water to domestic and irrigation use, for the propagation of fish, and for beneficial use, "provided such beneficial use shall not exceed one-tenth of one miner's inch of water per acre, perpetual flow, but such user of water shall have the right to cumulate the said amount within any period of such year."

This will permit the use of a reasonable amount of water for the filling of duck ponds, but it is limited to a certain quantity. This change is said to be entirely satisfactory to the ranchers, and it satisfies the gun club members.

Another amendment applies to all users of artesian water, tightening up the present law regarding waste. Under the present law it is illegal for a user of water to waste more than 10 per cent of the amount required for the purpose to which it may be applied. This law has been violated flagrantly, it is said, not only by one class of users, but by all. The Orange county grand jury recently called the attention of the officers to many cases of law-breaking in this respect, and some of the worst offenders are said to have been ranchers. Under the Leeds amendment, the amount that may be wasted is cut from 10 per cent to 5 per cent, so that all users will have to be much more careful than they have been. The Leeds bill probably will pass the Assembly tomorrow or Saturday. It will have no opposition in the Senate.

## FIRST TO WEAR OUT WITH AGE

Recipe Valued by Elderly People to Relieve Kidney and Bladder Trouble

—The great majority of men and women at the age of 50 years begin to feel the first signs of advancing age in some form of kidney trouble and bladder weakness. Few are entirely free from that tortuous disease, rheumatism, which is not a disease in itself, but a symptom of deranged function of the kidneys, which have become clogged and sluggish, failing in their duty of sifting and straining the poisonous waste matter, uric acid, etc., from the blood, permitting it to remain and decompose, settling about the joints and muscles, causing intense pain and suffering.

The bladder, however, causes the old folks the most annoyance, especially at night and early morning.

Hundreds of readers who suffer will find the following, which is known as the Dandelion mixture, the most harmless and effective treatment to clean the system of rheumatic poisons, remove irritation of the bladder and relieve urinary difficulties of the old people. It is a true vitalizing tonic to the entire kidney and urinary structure, reinvigorating the entire system. The Dandelion mixture consists of the following simple prescription, the ingredients of which can be obtained from any good pharmacy at small cost: Compound Kardon, one ounce; Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces. Shake well in a bottle

## MAIN CROP NOW IN LOWLANDS IS BEETS

Will be Double the Acreage in  
Sugar Producer That There  
Was Last Year

HUNTINGTON BEACH, March 11.—All ranchers in the peatlands agree that the outlook for the coming season is the best in the history of this section from a crop standpoint. An enormous acreage of sugar beets is

being planted, seeding being now largely completed, with every condition being favorable for large returns. The ranchers are planting little, if any, celery, lima beans or small vegetables, relying almost entirely upon sugar beets. Conservative estimates place the acreage planted to these this season as fully twice as large as that of last. The good price of the beets last year and the sure returns seem to have resulted in inducing peatland ranchers to place their whole reliance on that crop.

## THE KANSAS TIN SHOP

No. 4

We have observed that among the lines of business represented in Santa Ana some of the hardware houses are trying to boost their business by "going for it."

Those fellows are sending out "drummers" thus acting on the advice of some of the jobbing houses.

Now, it costs lots of money to send a man out on the streets and highways and it don't add to the general volume of business (except as hereinbefore stated.)

For the past twenty-three (23) years we have been "doing business" in Santa Ana and we have been fairly successful.

We have endeavored to give full value for the money we have received.

We have relied on square dealing and legitimate advertising to secure a fair share of the business of town and country.

We have no quarrel with anyone who chooses to send out solicitors for any purpose they may choose, but we will not follow them in that line.

But instead we will estimate a fair value for the time spent in "drumming" for the business and give the buyer the benefit.

We are aware that we will be accused of CUTTING PRICES and before we get through with this matter the evidence of that fact will be conclusive.

We have not been exacting an undue margin for our time and the money employed.

We "own every brick in the hut" we occupy and feel fully able to transact the business on a smaller margin than we otherwise could.

We have fully concluded that instead of dividing our profits with the "Drummer" we will divide with the purchasers.

If you want building hardware or plumbing goods, see

## HOW HAVE THE MIGHTY FALLEN!

The following editorial is from a very recent issue of the Riverside Enterprise which, during the recent State Senatorial unpleasantness, fairly "bust its hamestrings" shouting for Estudillo and denouncing the Register for exposing its idol's feet of clay:

ON WHAT, OH CAESAR!

In the Sacramento Union of recent date we find an interview given out by Senator Estudillo of Riverside, with comments thereon by the legislative writer of the Union. And with other substance which is irrelevant we find this:

"The story is that the editor of the Riverside Enterprise (meaning the writer hereof) having learned from the experience of Editor Rowell of the Fresno Republican what pleasure it is to be a county 'boss,' has been trying to imitate Rowell in Riverside, but not with such entire success as has until recently attended Rowell's efforts. The Enterprise man earlier in the session came to Sacramento and tried to bully Estudillo into agreeing to an amendment to the county government act, under which the supervisors there would receive a larger remuneration. Anyone who knows the senator (meaning Mr. Estudillo of Riverside) can imagine what would happen when the editor tried the bullying method."

Now the writer hereof (being the editor referred to) does know "the senator" very, very well indeed, and being a person of "imagination," very naturally had a full appreciation of what would happen to anyone who might undertake to use force upon our "senator." The report is incorrect; we did not address the senator haughtily, like a bully, but rather laid our petition before him meekly as becomes one so humble when addressing one so mighty. Moreover, the petition was withdrawn as soon as presented. In Sacramento it is a matter of common knowledge that the senatorial toga has clothed Mr. Estudillo of Riverside, "the senator," with a sort of infallibility which is the amazement of all his associates, and accordingly we knew that if what we might ask were right the "senator" would know it at once by intuition and do it without being asked, and if it were not right, nothing in the world could persuade him to lend the project the support of his influence—as "anyone can imagine who knows the senator."

This incident is very distressing indeed to the writer. It appears that we have not left upon the "senator" nearly so favorable an impression as we entertain of him. We all like to be highly regarded by those whom we set ourselves before as ideals. In the past the Enterprise has said many complimentary things of Mr. Estudillo, now the "senator." Indeed, within the year, this has been the only paper in two counties to say a good word for him, to say nothing of rising to an appreciation of the rare qualities of statesmanship which are bringing him distinction. At the last election two thousand voters of his own party disagreed with us and insisted that he was an ass, all of whom we have gently but firmly reproved. In Sacramento we found our own impression of the "senator" fully confirmed. We did not have time to see but one or two others besides the "senator," but he agrees with us absolutely in regard to all that has been published concerning his splendid qualities of intellect and character. Elbert Hubbard says no man rises to the full possibilities of achievement until he becomes conscious of his own strength and ability. The "senator" labors under no such disadvantage. He is conscious. To make use of a classical reference, our Caesar hath fed upon the food of flattery until the waistband which was ample even as you and I knew it, has now expanded out of all proportion.

There are quite a few in the senate who disagree with Mr. Estudillo and the Enterprise in their estimate of the "senator;" but they are all wrong, like the two thousand misguided Republicans in the "senator's" district. Really he is a very great man. We note that he is being spoken of for governor. It could not be otherwise. The simple virtues which in his round countenance would force themselves into prominence anywhere.

It's sometimes embarrassing to have the flashlight suddenly turned on, when you don't expect it. But so far as the clothes are concerned you needn't be ashamed to be seen anywhere wearing any of our

The times call for the leadership of one so fierce in meek and so strenuous in action that no one would dare "bully" him, which is a clinch and "can be imagined by all who know him." At home the "senator" is the mirror of political virtue, and at the capital he is the bulwark of the constitution and things. No trifling with him. No, sir!

And as to the ambitions which it is said the writer possesses to become "boss," no real political tyrant begins by bossing big game at first. He should begin by tyrannizing petty officers like constables and justices of the peace and not essay senators who are "spoken of for governor" until he has attained a degree of proficiency.

Commenting on the foregoing, the Riverside Press says:

WHY THIS CHANGE OF HEART?

In an editorial in this morning's Enterprise, Editor Barton feels called upon to admit that he was in error when he supported Mr. Estudillo for the senate. Mr. Barton goes so far as to assert that his was the only paper in the senatorial district that actually did support Mr. Estudillo, and it must be a bit humiliating at so early a date to have to admit his error and to apologize for his course.

This example of the parting of the ways is an interesting commentary on the failure of political true love to pursue its joyous way in peace and serenity. And one can only wonder that if the Enterprise blundered in the support of Mr. Estudillo if it has been quite infallible in other political activities—even in its frenzied advocacy of Mr. Collier for the Assembly or its triple supervisory alliance.

We pause for reply.

All of which adds to the gaiety of the nations. Verily, it is to laugh! Indeed one might even be excused for growing highly hilarious.

### Treasures From the Deep

Divers are to be seen all around the South African coast in these days. They are attracted there by tales of untold wealth still stowed away in the sunken hulls of old Dutch East Indiamen. An old solid oak vessel which lies off Oude Krall, only a few miles from Cape Town, was located by the divers a few months ago. First were found some old iron cannon and cannon balls, incrustured with rust; bits of timber were brought to the surface, and then more valuable finds. Antique glass vases, chinaware and genuine terra cotta jugs were discovered, covered with barnacles and weeds, but still valuable. Out of the hulk came a great slab of grayish metal. It was silver, covered with what seemed to be hieroglyphics. The marks were closely examined and were found to be the number 67, over an O inclosed in a rudely shaped heart, stamped into the metal. Another slab was brought up two days later.

### Cinderella Matinee

The performance of "From Farm to Factory" by the Ellefords last night was a very good one in all parts. The business of the piece was thorough and everybody played well, even the quite subordinate characters being capably rendered. The scenery was also effective. There will be a treat for everybody at the matinee tomorrow afternoon when the fairy tale "Cinderella" will be given in spectacular form including the transformation of the rats and mice into coach horses. There will be the roles of Cinderella, the Prince, Fairy Godmother, the Baron and the two cruel sisters and the faithful Pedro. Specialties will be given. Prices to the matinee have been placed at 15 cents for children any part of the opera house and 25 cents for adults.

Tonight the Ellefords will present Effie Ellers greatest success, "A Woman's Secret," and which is said to be one of the strongest pieces in the entire repertoire. It is in four strong acts that hold the interest of the audience from start to finish. The company do their best work in this play and there is an abundance of comedy to lighten up the sombre portions of the drama.

#### LOS ANGELES PRODUCE MARKET

Small white beans advanced 25 cents a hundred yesterday morning on account of the active demand which has been growing regularly for the past two weeks. The call for all beans has been better and prices on that account have become very firm, with indications pointing to the rise of several other varieties. The advances in flour, wheat and food commodities of all kinds, is given as a reason by many of the dealers for the better call for beans. These are comparatively a cheap article of diet when compared to meat or eggs. The lean season, which causes a decline in the meat demand, is also a cause for the better call for beans. Yesterday's arrivals of the dried vegetables were the heaviest of the week, nearly two cars.

A heavy call for eggs held prices firm. The San Francisco market has been steady right along, and the quotation on fancy ranch stock is 3 cents, 1 cent higher than here. Casecounts sold well and in large quantities. A few eggs were reported down from along the Coast. The receipts over the railroads and by express were 597 cases.

Butter arrivals were 24,445 pounds. There was a fair call for creamery firsts. Cooking butter was slow in movement. Packing houses report a good call for suetene, margarine and other butter and lard substitutes at present. Further declines are expected in all grades of butter here. The northern market is down to 66 cents per two-pound roll on best creamery. The call for cheese was only fair and arrivals were 400 pounds.

New potatoes have been coming in so rapidly that the price on them has slumped rapidly. A good white or red spud, not very large, but sound and without inside rot, sold at 1.00 a lug box. At the end of last week, the same spuds sold at 2.00 to 2.25. Northern arrivals were only fair and receipts from neighboring states were not too large. Altogether, receipts totaled less than five cars. A car of onions approximated the entire receipts of that vegetable. Prices were firm and movement slow.

Sweet potatoes have been coming in slowly. Only a few more than 100 sacks were brought in yesterday and the market was firm on good stock. There has been considerable rot among the late arrivals.

Shipments of asparagus were lighter than the day previous and prices, as a result, were unaltered. The market on lettuce advanced again on all good stock. The decline of last week, was entirely recovered and even a higher level reached. First grade sold at 1.75 a crate. Peas were plentiful. The best price on them was 6 cents. Beans were scarce. Bunch goods moved slowly.

Turtles from Mexican waters, shipped to San Diego and then forwarded to Los Angeles, arrived yesterday morning in large numbers. One dealer alone had seventeen of the big reptilians and distributed them among the larger hotels in a short time. There were more than these shipped in and so Los Angeles should be well supplied with turtle soup for the remainder of the week. Barracuda are high and not plentiful. Rock cod and halibut are supplying the major call for fish. Smelt are coming in regularly.

Wild pigeons, shot in the mountains along the coast, were received yesterday by several dealers. They were held at 3.00 a dozen. Hunters in San Joaquin Valley bagged a large number of geese, which were offered on the market and sold readily at 3.50 to 4.00. The increased price on ham and lard took effect among the retailers.

# Overstocked Sale of Books

TEN DAYS ONLY—MARCH 13th TO 23rd, INCLUSIVE

BEGINNING TOMORROW MORNING, and for nine business days following, we will throw our entire stock on the market at prices that have never before been offered in Santa Ana on similar merchandise. Certain departments are badly overstocked and in order to get all lines down to a normal basis, we have decided to cut prices on everything without reserve. Prices are not shaved a few cents here and there but are cut to the very limit in order that the work may be accomplished in a decisive manner. Bear in mind—not one article is exempt from price cutting (except a few agency lines which are always sold at contract prices). Standard works of literature, latest fiction by popular authors, illustrated books, office supplies, stationery, pictures, musical instruments, ladies handbags and everything in our entire stock is reduced in price. All prices are cut 25 per cent at least, some articles are a third off, some half price and many lines of books are actually less than half price. This is a book buying opportunity that everyone in Orange county should take advantage of. Come early and buy liberally. You'll lose a big opportunity if you don't.
